Specifications

Table Frame Components	Table legs and aprons are harvested from certified sustainable sources and constructed of 100% Solid European Beech Hardwood. All parts are cut, machined and assembled in the U.S.A.
Table Construction	Frame is glued and screwed together to form a uniform and unitized support for the top. Legs are not replaceable. Plastic glides are standard.
Tops	Top options include: HPL w/ 3mm PVC, Thermoform, Solid Surface All are connected using screws and are field replaceable.
Finish	Options: 18 stains with coordinated HPL matches
Finish Specification	All wood surfaces are finished in a 14 step process using a catalyzed conversion varnish, sealer and top coat. The conversion varnish finish offers superior moisture and chemical resistance and surface strength. Additional information is available regarding the finish process and the full features and benefits of conversion varnish.
